Cardiopulmonary Science Seniors

Well, the year that we have been waiting for has finally arrived. Since we merely toddlers, our parents have dreamed of that day when their children would graduate from college. Finally, the years of hard work and determination have reaped an education that will prepare us for what the real world has to offer.

Our senior year was comprised of a potpourri of subjects, including cardiovascular diagnostics, teaching methods, research and statistics, and cardiopulmonary rehabilitation. These courses provided us with a

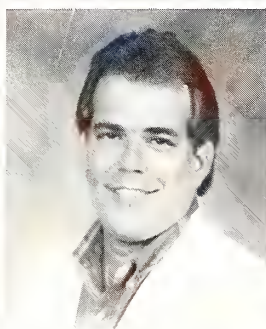

basis for advancement in our profession. However, outside the classroom, we still found time to have fun at a summer barbecue, at a Christmas party at Chianti's, and at a summer crawfish boil.

As the year draws to a close, we have begun to plan for a life after graduation. Some of us will move to various parts of the country, while others will remain in Shreveport to search out the opportunities here. Wherever we may go, LSC in Shreveport will positively influence the futures of Respiratory Care and Cardiovascular Technology.

The CPS gang celebrates Christmas at Chianti's.

Smoke'em if you got'em.

Eat, drink, and study.

Today's scholars, Tomorrow's therapists.

We were strangers. Our personalities were as different as night and day. We were different ages and came from various backgrounds with different experiences. Yet we came together in search of one common goal ... academic success. Somewhere along the way we found something more. We made friendships unlike any we had ever had before or may ever have again. We laughed together, cried together, criticized each other, and supported each other. Yes, we came as strangers, but we learned more from these strangers we now call friends than we could ever learn from mere academics.

Communication Disorders

Kelly Johnson, Kim Monk, Jill Sorensen, Sheila Wells and Eva Barnhouse learn what it's like to lose the "power" of youth.

PHYSICAL THERAPY SENIORS

Now it's time to condense two of the best years of our lives into two tiny columns. One word encompasses the whole experience ... challenging! Professionally and personally we grew as a team, yet we developed our own individual strengths. Similarly, we were different in that we were competitive and mutually supportive at the appropriate times. Our unity was achieved partly through our commitment to excellence, and partly by our humorous

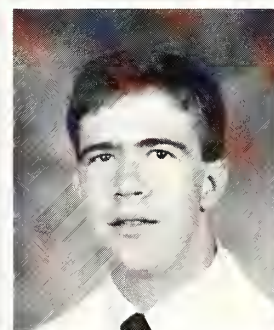

natures and sociable, outgoing characteristics. Despite the demands and desires to excel, stress from eternally mounting projects, study, exams, family abandonment and isolation from society, we maintained our comradarie. We are indebted to our families, classmates, and physical therapy faculty members for their patience, support and infinite contributions to our professional development.

Social life memories
The popular party fad was the
"qudruped pyramid". Faces of . . .
Pure pizza enjoyment, Mama Mia
memoires, Luaha SIJ self-mobs,
and LPTA conventional smiles!

Physical Therapy Juniors

We arrived as twenty-three individuals with high expectations and a common goal. Our first discovery was of new friends with diverse personalities. Anatomy, Physiology, and Kinesiology . . . so began our study together in the summer of 1991.

Fall semester led to initiation into the Blue Macs and hands-on experiences in clinicals. "Clinics are pretty awesome and Fun!" exclaimed Lisa Pecory. A discovery of postural faults and deformities was encountered in Principles of Patient Evaluation and Management.

"Possibly where I learned the majority about human anatomic anomalies came from my hyperchondriac classmates!" exclaimed Melanie Massey. Other courses completed in the fall include Therapeutic Modalities, Pathology, Neuroanatomy, and Analysis and Synthesis of Human

Movement.

We began the spring semester by a building models of synovial joints for Manual Therapy. We also were enrolled in Medical Conditions, Orthopedics, Orthopedic Conditions, Cardiopulmonary Conditions, and Clinical Procedures II.

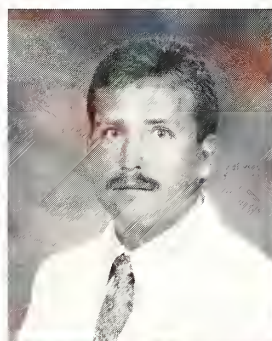

Free time was spent at numerous SGA activities and LPTA conventions. Twenty-three unique students have "gelled" into one class. At the completion of our junior year, our high expectations have been fulfilled.

"... reach deep down inside and use every possible resource in order to survive." ---- Cassandra Sojka

Occupational Therapy Seniors

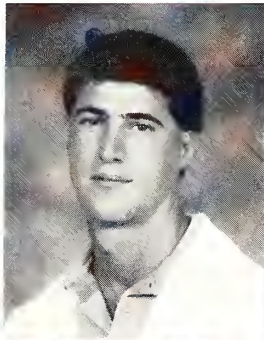

"I've got a friend . . ." We have all laughed about that statement. But now that we have finally finished, I think we can all sincerely say that since our first summer we have formed several life-long friendships. Although miles will keep us physically apart, in our minds the memories will remain. The following is just a "little" list of things to remember:
Turbo coffee

Late nights
Fire alarms
Abra, Sadie, DD, Slim
Cool rockin' Daddies
John's Clonus
Marry it!
Well . . .
Russel's muscles
Snappin' Turtles
Massage for a Buck
Marie's wrecks
Shoni's tickets
Model of Human Occupation

BURNOUT

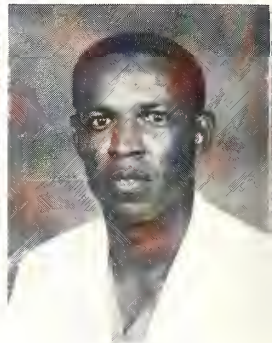

Medical Technology

The Medical Technologist serves as a vital member of the health care profession by participating in diagnosis, prevention, and monitoring of disease. The last 14 months of our college careers are spent here at LSUMC working towards

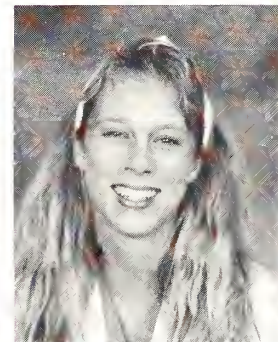

our Bachelor of Science degree in Medical Technology. We spent the first half of the year in the classroom and are currently rotating through the clinical lab in the hospital. I think we'd all agree that we are anxious to become a "Med Tech."

Student Government Association

The Student Government Association had a busy 1991-1992 school year. In the fall the SGA sponsored the Halloween and Orientation Parties which were held at the White House (Student Union.) Spring was eventful with participation in the Krewe of Aesclepius Ball as well as the ever popular Crawfish Boil and numerous "gatherings" on Thursday nights. Our association also initiated several service projects such as recycling, Christmas caroling at Shriner's Hospital and Friday night bingo at Heritage Manor South.

SOAP Notes/PULSE Staff

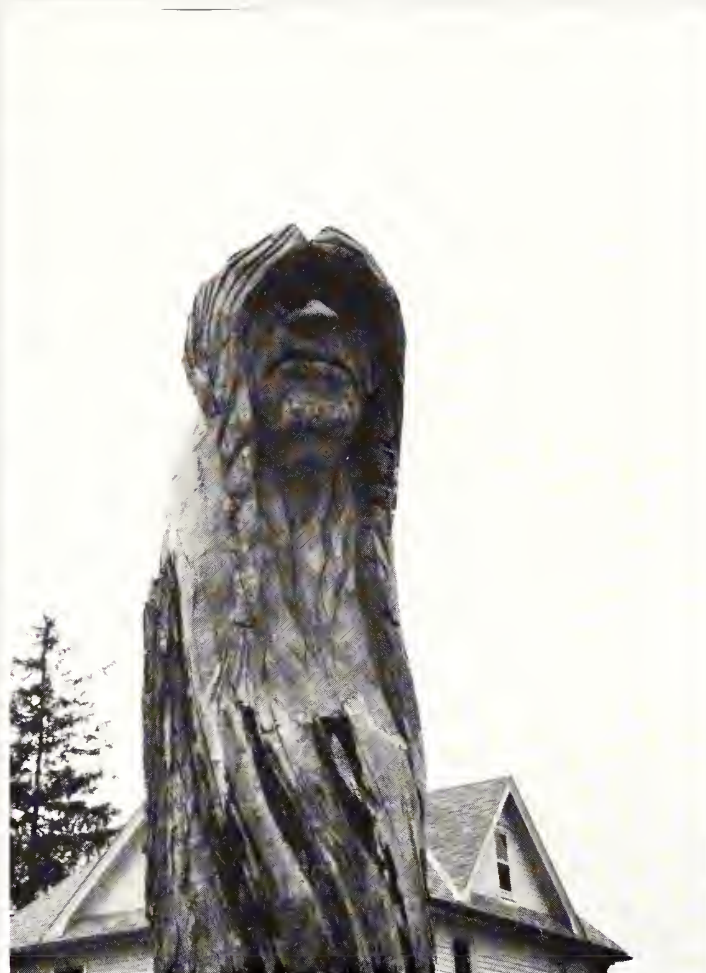

The SOAP Notes/PULSE staff kept busy through the year with their monthly entries to SOAP Notes. Quite original indeed! Putting together the yearbook was quite a task, as one may note by the photos. Great thanks goes out to those who contributed work, pictures, typewriting skills, and words of encouragement.

The staff consisted of one member from each class. They are pictured to the left.

Enjoy!

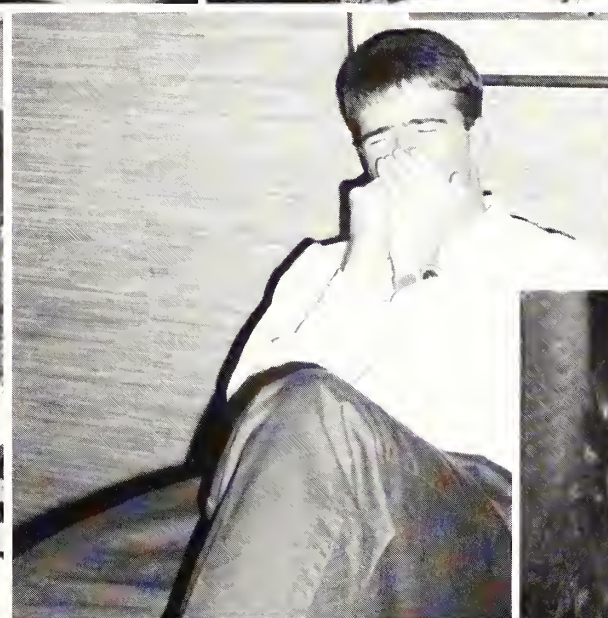

Party Odds And Ends

ALLIED HEALTH

Scenes from Allied Health social life We'll never forget those treasured moments of times spent together, laughing and relaxing away from all academia Although sometimes we couldn't leave the theories completely! From Bayou coordination testing and Osteo Throws to quadruped pyramids, one could still detect a S.A.H.P. student at some events!!!! Bon Voyage parties, Holiday parties, Halloween parties, Traditional class parties and even piano recitals helped us regain any lost sanity during stressful times.

Halloween Party

Twas the night before Halloween and all through the house, all the creatures were stirring and many got doused. Attending were the traditional goblins, ghosts, monsters, and witches. A special appearance

was made by Robert Palmer and his girls. The "Blues Brothers" stopped by and caught a peek at the "Fruit of the Loom Gang". Rockin' Ralph provided the rhythms that rocked the ghouls away.

Hank's Harem. Anything for an extra point.

Hans and Frans (A.K.A.- Tina and Sheri) finally found a way to "pump Hank up!"

There are different kinds of people in your neighborhood . . . Be Aware of Them!!!

They got soul, man!

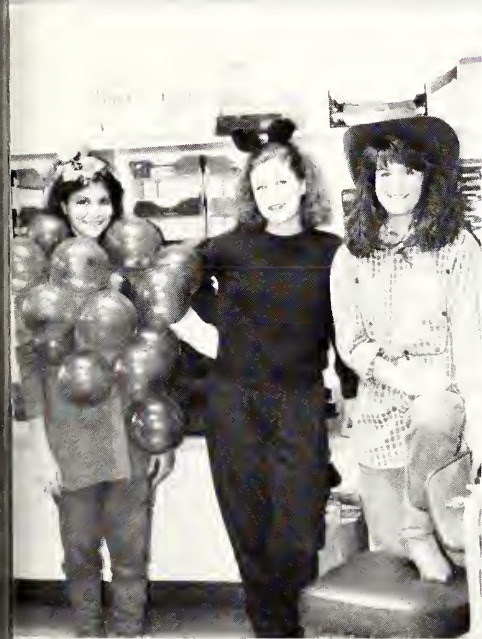

Peace and the Beast :.:.A classic tale.

o ahead, laugh. But I collected 20 bucks before I
t here.

"Just clownin' around!"

th a cowboy here and a kitty cat there, here a
pe, there a grape, everywhere a grape, grape ...

Might as well face it, they're addicted to school ... NOT!!

Deep Thoughts; We all love it when someone comes dressed to a Halloween party as
a cat. But does a ball of string count as a real costume?
